Operations Challenge FAQ

- **Is this task relevant to the role I applied for?**

  This task is only a portion of the whole candidate assessment process and it is intended to specifically understand your problem-solving skills. It is not necessarily reflective of the day-to-day tasks you'll encounter in this role. If you are successful in this phase, we'll move you forward to understand additional aspects of your skills, background, and interests.

- **What program should I use to do the task?**

  It's completely up to you.

- **The Excel datasets don't load, can I get a smaller set?**

  Unfortunately we don't have smaller sets to provide to you, solving this is part of the challenge.. Also please make sure that you use one of the latest Excel versions since they support larger sets.
  If your file still doesn't load if possible you should try using a laptop with bigger RAM. Another solution would be using any scripting language since it uses less memory than Excel.

- **How much time would it take on average to complete this challenge?**

  It will take a minimum of 5 consecutive hours to complete it. Our deadline is 7 days since we understand that you probably have other projects you're working on.

- **I see some discrepancies in datasets that are not mentioned in the task, can I get some clarification on how to interpret them?**

  We don't provide any clarifications, please interpret any discrepancies you find in whichever way works best for your solution.

- I can't read API, can I successfully complete challenge without it?

  Yes you can. You don't have to understand the API, however the API documentation can help making sense of the data and structuring analysis and logic in the best way

- Can I get a key to the API file?

  We don't provide any additional information/access keys/data besides what's in the hometask file.
